## COLOUR FIGURES IN NATURE

*Nature* is committed to providing authors with the highest quality figures, and we use the latest techniques to achieve this reproduction. We recognise, however, that excessive colour figure and page charges can sometimes place an enormous burden on authors. We therefore charge authors a fee of £735 for the first colour figure and £262.50 per figure for additional colour figures; this covers part, but not all, of our additional costs for four-colour reproduction. (Please note that in EU countries VAT will be added if you are unable to provide us with your VAT details below.)

No author will be denied publication based on his/her inability to meet these charges. If we agree that colour is essential but you are unable to meet the costs, they will be waived if you explain the circumstances to the editor who handled your manuscript before your paper is published. Otherwise you will be billed after publication.

**PLEASE COMPLETE AND SIGN THE SECTION BELOW, DELETING WHICHEVER ALTERNATIVE DOES NOT APPLY, AND RETURN A COPY OF THIS SHEET TO NATURE.**

☒ I agree to pay the sum requested by *Nature* in the event that colour is considered essential.

☐ I am unable to meet the costs of colour for the following reason:

For EU member countries, please tick the box and provide the VAT number if your Institution/University is exempt from VAT:

☐ My Institution/University is a VAT registered paying member of the EU

Dear Author,

Your paper may be eligible for our advance online publication (AOP) programme. In this programme, your paper will be published online on *Nature's* website at [www.nature.com/nature](http://www.nature.com/nature) as soon it is typeset and your proof corrections returned. It will be published in print as soon afterwards as space is available. The two versions of the paper are identical.

Our offer of this service is conditional on your agreement to the following:

- Your text, figures and any supplementary information are **all** included when you send us the final version of your paper for formal acceptance, and are **all in Nature-preferred format** (within length and below maximum sizes) as specified in our format instructions at <http://www.nature.com/nature/authors>.
- The corresponding (or otherwise designated) author undertakes to read and return the proofs **within 48 hours** of their receipt.
- If figures are in colour, the corresponding author signs and returns the the colour-figure payment form\*, **before** the paper is formally accepted.
- The corresponding author signs and returns the "author licence" form **with** the returned proof, **not later**.
- **No changes** can be made to the paper once the online version is published.

Please sign and return this letter, preferably scanned and uploaded with the final version of your manuscript, or fax letter to +44 207 843 4596 if this is not possible. Please specify below the author responsible for returning proofs if different from the corresponding author.

I agree to the above terms and conditions for AOP publication of my paper in *Nature*:

Name: *Alexander van Oudenaarden*

Manuscript number:

Name and contact details (phone, fax and email) of author responsible for returning proofs **if not the corresponding author**:

*Arjun Raj*  
*617 324 5042*  
*arjunraj@mit.edu*

\*Note, the offer of AOP publication is not related to authors' ability to contribute to costs of reproduction of colour figures.

## MANUSCRIPT CHECKLIST

Manuscript number. **2009-04-03717B**  
 Author name. **Alexander van Oudenaarden**  
 Article type. **Article**

The following checklist is intended to aid the publication of your manuscript. Please read through the list carefully and amend your manuscript as appropriate. To avoid delays in the production process, please complete and return this sheet with the final version of your manuscript.

### Text

Nature will edit text to conform to house style and for clarity and accessibility. Please check the following points when preparing the final version of your manuscript.

#### Letters to Nature

- ☐ Title no longer than 90 characters (including spaces)
- ☐ First paragraph referenced and no longer than 300 words
- ☐ No subheadings in main text
- ☐ Methods for print no longer than 300 words
- ☐ Online-only Methods provided as part of the main text file?
- ☐ No more than 30 references

#### Articles

- ☒ Title no longer than 75 characters (including spaces)
- ☒ First paragraph unreferenced and no longer than 150 words
- ☒ No more than 6 main subheadings of up to 40 characters (including spaces)
- ☒ Methods for print no longer than 300 words
- ☒ Online-only Methods provided as part of the main text file?
- ☒ No more than 50 references

#### All manuscripts

- ☒ Abbreviations and symbols defined on first use
- ☒ Italic font used for variables, genes and non-English languages; bold font for vectors
- ☒ Equations and special characters in Word in 'normal text' or Symbol font (Word Equation Editor avoided where possible)
- ☒ Authored in Compatibility Mode if using Word 2007 (i.e., as a Word 97-2003 document; saved as .doc format, NOT .docx)
- ☒ Brief title provided for each figure, table and box
- ☒ Figure legends no more than 100 words each
- ☒ Author contribution statement included (a statement of responsibility that specifies the contribution of every author; see [http://www.nature.com/authors/editorial\\_policies/authorship.html](http://www.nature.com/authors/editorial_policies/authorship.html))
- ☒ Declaration of any competing interests included in manuscript (<http://www.nature.com/nature/authors/policy/competing.html>)
- ☒ Database accession numbers included for sequences determined in this paper
- ☒ Structure data in Nature standard tables

### For TeX users

Word or rtf formats are preferred, unless there is very extensive use of special characters or equations. Such formats enable on-screen subediting and the preparation of a 'pre-proof', when the editing can be checked before formal proofs are prepared. We have found that this minimizes the chance of errors being inadvertently introduced.

- ☐ Word conversion not practicable

### Artwork

Contact our subeditors at [authors@nature.com](mailto:authors@nature.com) for further help and advice on preparing text for publication.

Nature will edit figures to conform to house style and for clear reproduction in print. Standard figure sizes are 89 mm wide (single column) and 183 mm wide (double column); figures can also be a column-and-a-half width where necessary (120-136 mm). Please check the following points when preparing your figures.

#### Electronic figure formats

- ☒ Preferred file formats for line (or vector) artwork and graphs are unflattened eps, postscript, pdf and Illustrator (ai) files
- ☒ Preferred file formats for photographic images are TIFF and Photoshop (minimum resolution 300 dpi). If you have created images with separate components on different layers, please send us the Photoshop file (.psd) with the layers intact
- ☐ For a full list of acceptable electronic formats, see <http://www.nature.com/nature/authors/submissions/final>

#### When preparing and sending figures

- ☒ Text in an editable format and in sans serif font (Helvetica, Arial)
- ☒ Text and lines clearly visible when figure is sized for page: type size 6-8 point; lines preferably 0.5 point (0.18 mm)
- ☒ Colour images in CMYK (not RGB) mode; ensure you are happy with the conversion from RGB to CMYK before submission
- ☐ Suggestions for cover artwork submitted if desired
- ☒ Completed colour costs form submitted with manuscript ([http://www.nature.com/nature/authors/submissions/final/colfigs\\_Jan2009.pdf](http://www.nature.com/nature/authors/submissions/final/colfigs_Jan2009.pdf))
- ☐ For reviews/Insight articles, permission obtained for any republished or redrawn illustrations

See [http://www.nature.com/nature/authors/submissions/final/Final\\_artwork.pdf](http://www.nature.com/nature/authors/submissions/final/Final_artwork.pdf) for detailed guidelines. For further help and advice, e-mail our art editors at [art@nature.com](mailto:art@nature.com).

Nature does not edit online-only material. Please check the following points when preparing Supplementary Information:

### Supplementary Information

- ☒ Supplementary Information referred to in main text (print version) of paper
- ☐ Summary diagram/figure included as part of the Supplementary Information (optional)
- ☒ Separate text file ('SI Guide') provided with a brief description (file format and content) of each item
- ☒ We recommend that all Supplementary Information is supplied as a single PDF file, where possible.

See <http://www.nature.com/nature/authors/submissions/final> for advice on preparing Supplementary Information.

E-mail [authors@nature.com](mailto:authors@nature.com) if you have additional queries.
